## Movie Trailer Deconstruction

**Complete (3) Deconstructions.** Try Apple movie trailers or any other site that stores trailers

You **MUST** choose a **horror / thriller/ suspense** trailer. Choose large for better viewing.

**Answer the following questions:**

1. What is the name of the trailer? What web site did you use?
2. Who are the primary characters? What are their roles?
3. What is the setting/location of the movie? Is it day or night? Weather?
4. What may be the central conflict or obstacle for the character(s) to overcome?
5. Is the outcome foreshadowed, or can you anticipate how the movie may end?
6. Does the trailer end with a cliffhanger? What is it?
7. Are there music/sound effects in the background? When does the music begin? Where do they place the sound effects? What does the music add to the movie trailer?
8. Evaluate the production process using the following techniques. Why they are used, **and** what they accomplish. Use reference materials if needed to support your evaluation.
  - a. Transitions
  - b. Speed of film
  - c. Camera angles
  - d. Audio (voice-over narration, characters speaking)
  - e. Titles
